### **Oregon Pacific Bank Announces Second Quarter Earnings Results**

**Florence, Ore., July 20, 2023**—Oregon Pacific Bancorp (ORPB), the holding company of Oregon Pacific Bank, today reported financial results for the first quarter ended, June 30, 2023.

#### **Highlights:**

- Second quarter net income of \$2.2 million; \$0.31 per diluted share
- Quarterly loan growth of \$16.8 million or 3.40%
- Quarterly tax equivalent net interest margin of 3.72%
- Federal Reserve approved conversion of Portland loan production office to full-service branch

Net income for the quarter ended June 30, 2023, was \$2.2 million, or \$0.31 per diluted share compared to \$1.9 million or \$0.27 per diluted share for the quarter ended June 30, 2022. Core earnings remained strong, but the Bank experienced some margin compression as pressure on cost of funds and deposit retention grew. The second quarter margin contracted to 3.72%, down from 3.87% in first quarter 2023, but still remains elevated when compared to the quarterly margin of 3.27% from second quarter 2022. The rapid pace of rate increases occurring between mid-2022 and early-2023 lead to record margin expansion and the industry is seeing some amount of compression as deposit rates lagged the increase in asset yields.

During the quarter the Bank received regulatory approval to convert the Portland Loan Production Office into a full-service Branch. The Bank has identified a permanent branch location located at 16101 SW 72nd Avenue, with an official branch opening anticipated during the third quarter.

"Conversion of the Portland Loan Production Office into a full-service branch further demonstrates the Bank's commitment to growing the Portland Market," said Ron Green, President and Chief Executive Officer. "We believe the strength of our Portland banking team, led by Market President Kyle Baisch, will have tremendous success as clients continue to see the value of relationships and the community bank model."

Period-end loans, net of deferred loan origination fees, totaled \$510.3 million, representing quarterly growth of \$16.8 million. The first quarter loan yield grew to 4.96%, representing an increase of 0.11% over the prior quarter as new loan production is occurring at a rate higher than the portfolio yield. Quarterly loan production for new and renewed loans totaled \$32.1 million, with a weighted average effective rate of 6.71%.

The Bank experienced quarterly deposit contraction totaling \$12.4 million compared to deposit totals at March 31, 2023. During the second quarter two large clients reduced their deposit balances held with the Bank. A large nonprofit utilized excess cash to begin funding a large construction project and a commercial client completed a partner buyout. The deposit reductions associated with these two clients totaled \$15.6 million compared to their balances at March 31, 2023.

"Deposit migration during the second quarter generally occurred as a result of normal operating activity, with rate-based migration occurring far less," commented John Raleigh, Chief Lending Officer. "Deposit rates are still top of mind, but the targeted interest rate increases implemented during the second quarter have helped retain rate-sensitive clients while balancing the bank's total cost of funds."

The Bank's cost of funds increased to 0.78% during the second quarter, compared to 0.51% during the first quarter, resulting in an increase in interest expense of \$453 thousand during the quarter. The Bank continued to utilize Insured Cash Sweep (ICS) deposits to provide added FDIC insurance to customers seeking added protection. ICS deposits grew from \$104.3 million at March 31, 2023 to \$110.1 million at June 30, 2023 and are reflected in the interest checking line item of the balance sheet. Through June 30, 2023, the Bank's ICS reciprocal concentration remains below 20% of deposits, so no portion of the ICS deposits are classified as brokered deposits for regulatory reporting purposes.

The securities portfolio contracted to \$181.5 million during the quarter, down from \$195.6 million at March 31, 2023. The reduction was attributable to an increase in the unrealized loss on the portfolio, normal portfolio cash flows and a sale of \$9.5 million in securities. The sale candidates were tax-exempt municipal bonds purchased during 2016, which were able to be liquidated with a minimal loss of \$30 thousand to generate cash flow to fund loan growth, while maintaining the overall security portfolio yield.

Noninterest income totaled \$1.8 million during the second quarter 2023 and represented growth of \$91 thousand over first quarter 2023. The largest increase in non-interest income occurred in the trust fee income category, which increased \$59 thousand over first quarter 2023. The increase was primarily attributable to growth in trust assets under management which totaled \$222.9 million at June 30, 2023. On a year-over-year basis this represents growth of \$27.5 million or 14.26%.

"The Trust business continues to be a strong source of non-interest income," said Beth Knorr, Director of Trust Services. "Demand for Trust Services continues to grow and as a result, during the quarter the Bank added two new Trust Officers, Shaina Peters in Roseburg and Justin Miller in Coos Bay. The investment in additional trust personnel should position the Trust Department for anticipated future business growth."

Noninterest expense for the second quarter 2023 totaled \$5.4 million, representing an increase of \$129 thousand over first quarter 2023. The largest expense fluctuation totaled \$52 thousand and occurred in the trust expense category due to investment in trust-related personnel. Additionally, the other operating expense line item also grew \$48 thousand over the prior quarter. This fluctuation was primarily attributable to increased FDIC insurance assessment as the FDIC approved a final rule in October 2022 to increase the initial base deposit insurance assessment rate by two basis points for the first quarterly assessment period of 2023, which was billed in second quarter 2023. This rate increase occurred before the failure of Silicon Valley Bank, and this line item may see additional fluctuation based on the final Silicon Valley Bank related special assessment.

#### Forward-Looking Statement Safe Harbor

This release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA"). These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as "anticipates," "targets," "expects," "estimates," "intends," "plans," "goals," "believes" and other similar expressions or future or conditional verbs such as "will," "should," "would" and "could." The forward-looking statements made represent Oregon Pacific Bank's current estimates, projections, expectations, plans or forecasts of its future results and revenues, including but not limited to statements about performance, loan or deposit growth, loan prepayments, investment purchases, investment yields, strategic focus, capital position, liquidity, credit quality, special asset liquidation, noninterest income, noninterest expense and credit quality trends. These statements are not guarantees of future results or performance and involve certain risks, uncertainties and assumptions that are difficult to predict and are often beyond Oregon Pacific Bank's control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements. You should not place undue reliance on any forward-looking statement and should consider all of the following uncertainties and risks. Oregon Pacific Bancorp undertakes no obligation to publicly revise or update any forward-looking statement to reflect the impact of events or circumstances that arise after the date of this release. This statement is included for the express purpose of invoking the PSLRA's safe harbor provisions.
